SUMMARY

Enthusiastic and detail oriented Full Stack Java Developer with a strong foundation in building web applications and delivering real world solutions. Passionate about creating efficient, user-focused systems and continuously improving development processes. Seeking a challenging role in a dynamic organization to contribute to impactful projects and grow as a software professional.

EDUCATION

Master of Computer Applications (MCA) , Sri Chaitanya Technical Campus — Expected2026
Bachelor of Science ,, SRNK Degree College | CGPA: 7.34 | — 2021-2024
Intermediate MPC , Junior Model College | Percentage: 65% — 2019-2021
SSC, ZPHS High School, Ibrahimpet | CGPA: 9.0 — 2019

SKILLS

Programming Languages	Java, JavaScript
Backend Frameworks	Spring Boot,Spring MVC,Spring Security,JWT (JSON Web Token)
Frontend Technologies	HTML,CS
Database	MongoDB
Caching	Redis
Testing	JUnit
Version Control	Git,GitHub
API Documentation	Swagger
Core cs concept	operating system, computer networking

PROJECTS

Project 1 : Email Generator System [Project Link]
Technologies: Java, Spring Boot, Google Gemini API,Chrome Extension
Developed a web application that automatically generates emails based on user input and existing email data. Backend implemented using Java and Spring Boot to handle API requests and email generation logic Integrated Google Gemini API for intelligent email content suggestions. Created a Chrome Extension to allow users to generate emails directly within their browser. Improved productivity by enabling quick email drafting and reducing manual effort

Project 2 :OrangeBite Food Delivery Website [Project Link]
Technologies: html,css,javascript,git
The project involved implementing a functional shopping cart feature using client-side JavaScript to manage item totals and calculate complex costs (subtotal and delivery fees). Furthermore, the design prioritized user experience by incorporating a modern, responsive layout using Flexbox/Grid, ensuring a seamless experience across mobile and desktop devices, and including a dynamic menu filtering system to enhance products
