PROFESSIONAL SUMMARY

Results-driven Full Stack Java Developer with expertise in end-to-end web application development software engineering solutions. Proficient in agile development methodologies, RESTful API design, and scalable system architecture. Demonstrated success in implementing robust backend systems with Spring Framework. Seeking to leverage technical expertise in a challenging software engineering role to drive innovation and deliver high-impact solutions.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript
- **Backend Technologies:** Spring Boot, Spring MVC, Spring Security, JWT, REST APIs
- **Frontend Technologies:** HTML5, CSS3, Responsive Web Design
- **Database Management:** MongoDB, Hibernate
- **DevOps & Tools:** Git, GitHub, Redis, JUnit, Swagger/OpenAPI, Maven
- **Software Engineering:** Object-Oriented Programming (OOP), SDLC, Agile Methodologies
- **Operating System:** Windows

EDUCATION

Master of Computer Applications Sri Chaitanya Technical Campus	Expected 2026
Bachelor of Science SRNK Degree College CGPA: 7.34/10.0	2021 – 2024
Intermediate (MPC) Junior Model College Percentage: 65%	2019 – 2021
Secondary School ZPHS High School, Ibrahimpet CGPA: 9.0/10.0	2019

PROJECTS

Email Generator System | [Project Link](#)

Technologies: Java, Spring Boot, REST APIs, Google Gemini AI API, Chrome Extension

- Engineered a full-stack web application for automated email generation using Spring Boot.
- Integrated Google Gemini for intelligent email content suggestions and automation.
- Built a Chrome Extension to enable seamless email generation within browser environment.
- Enhanced productivity by 60% through automation of manual email drafting processes.

Hospital Management System | [Project Link](#)

Technologies: Java, Spring Boot, Spring Data JPA, Hibernate, MySQL, REST APIs

- Developed a backend Hospital Management System using Spring Boot.
- Implemented Spring Data JPA for database operations.
- Built RESTful APIs to perform CRUD operations for hospital management.

Food Delivery Website | [Project Link](#)

Technologies: HTML5, CSS3, JavaScript, Git, Responsive Web Design

- Developed a responsive e-commerce platform with dynamic shopping cart functionality.
- Implemented client-side calculations for order totals, taxes, and delivery fees using JavaScript.
- Designed mobile-first user interface using CSS Flexbox and Grid layout systems.

CERTIFICATES

- **Java Programming:** Scaler Academy [certificate link](#) , Simplilearn [certificate link](#)
- **Spring boot:** Scaler Academy [certificate link](#)
